THE FOUNDATION FOR A NEW ECONOMY

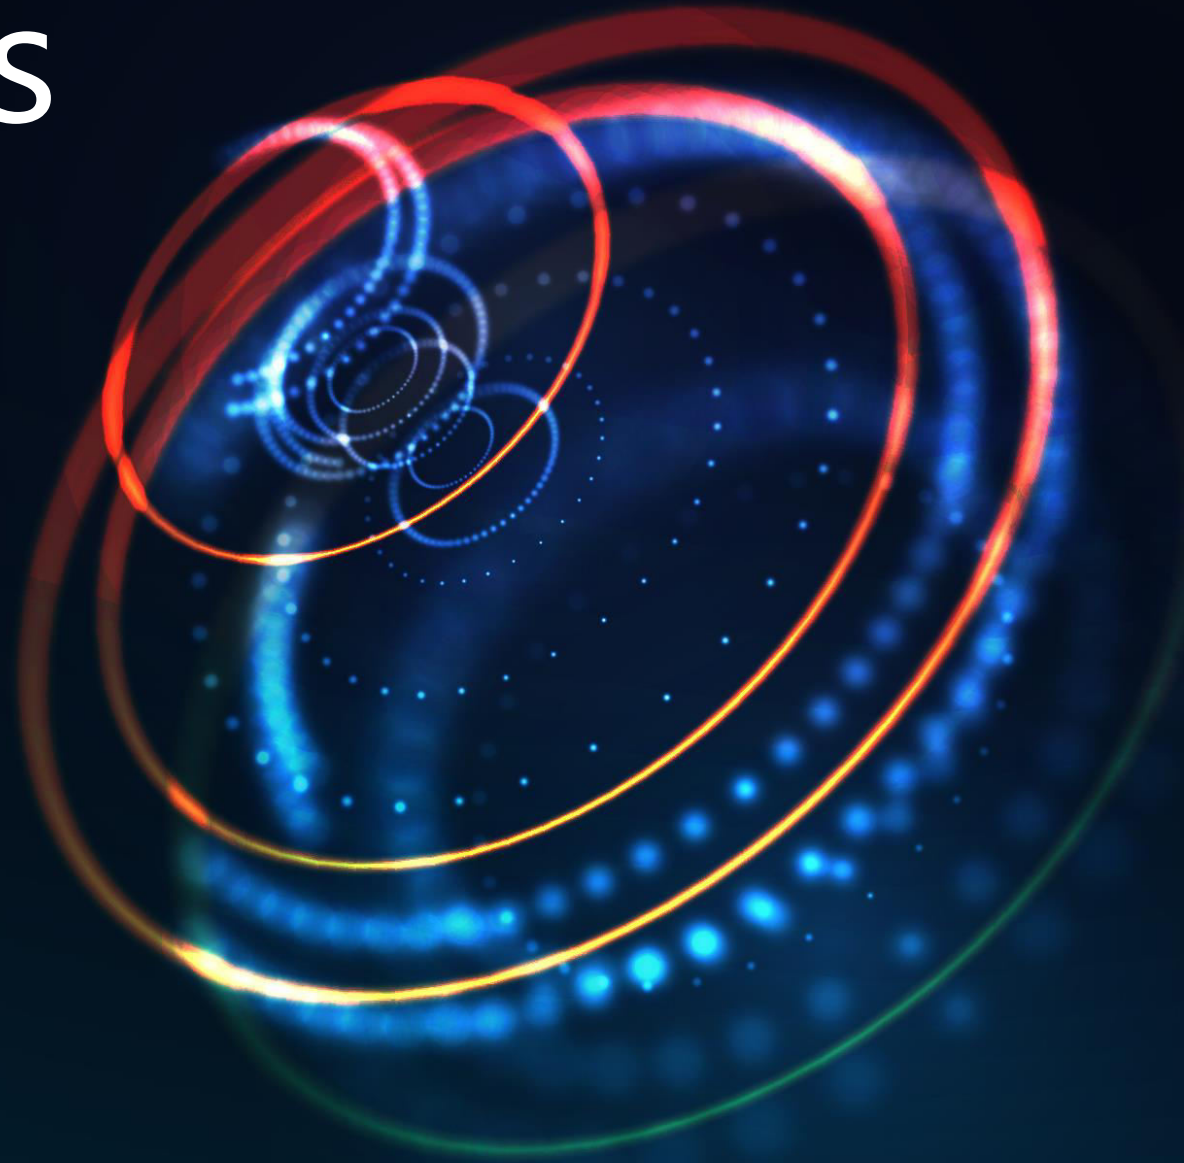

An abstract graphic on the left side of the slide. It features several concentric circles and a spiral-like pattern of dots. The dots are in shades of blue and purple, and the circles are thin lines of the same colors. The overall effect is a sense of depth and movement, resembling a stylized galaxy or a digital data visualization.

Introduction

While Decentralized Finance (DeFi) continues to make waves and maintain its parabolic growth, yield farming remains a popular tool for generating returns from long-term holdings. For the uninitiated, yield farming is simply the act of staking your assets into a platform to earn yield.

Farming Benefits

Our vision is to be a leading Bitcoin and wLink farm on the Binance Smart Chain platform, possessing transparent and fair metrics and bringing many returns.

CROSS-BORDER PAYMENTS

A NEW BEGINNING

Gaming

Gaming is one of the most obvious platforms for digital currency usage. Build an engaging game with digital goods, tradeable directly on your platform.

Real Estate

Store and transfer ownership of property rights and other licensing documents.

Blockchains act as notaries in which you can use to verify ownership or revocation of property.

Open Finance

Centralized exchanges are subject to the whims of their jurisdictions. Build a decentralized economy to let your users trade across connected coins economies.

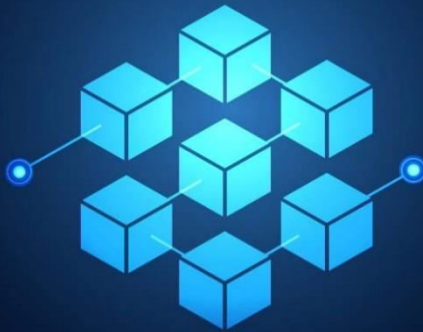

Healthcare

Maintain control of your personal health data with a fine grain permissions system.

Only healthcare providers you approve can access your data.

Audit REPORT

SAFE&TRUST

The token has undergone multiple preparation for listing on major exchanges and major trading floors and will soon be integrated into them.

01

NFT

The type of Yield farming that doesn't interest you is a bunch of NFTs. We allow users to create their own NFTs, buy and sell NFTs with wBitcoin and wLink on the NFT Marketplace platform. You will enjoy it. It will be coming soon!

02

Deposit NFT to get assets. Users can use any wBitcoin or wLink cryptographic token to use NFTs, which are randomly generated and can be classified into five groups: bronze, silver, gold, platinum, and diamond to determine the mining power of NFT

03

Consensus

The key points of wBitcoin and wLink are eliminating excessive incentives, distributing rewards fairly, and removing financial barriers for small-scale investors.

REPORT INTRODUCTION

Community Driven

Making money is good, but making money together is even better.
We choose to share our success with the world to enhance the living standards of communities, your families, and your bank accounts.
Transparency
wBitcoin and wLink will increase transparency in transactions
by providing detailed and real-time logs of all transactions. We will
be as transparent as possible while remaining competitive.

Why choosing wLink?

Low transaction fees
Smart Chain's low transaction fees make transactions simple for everyone.
Stake Profit
The profit (dividends) are accrued to your account on a daily basis and in real-time. You can withdraw the dividends at any time.

The background features a series of concentric, wavy lines in shades of blue and white, creating a sense of depth and movement. These lines are composed of small dots, giving the impression of a digital or particle-based environment. The overall color palette is dominated by deep blues, with some lighter, almost white, highlights where the dots are more densely packed.
